## **Cascade updating its water efficiency goals: Your input is important!**

**September 17, 2013:** Cascade Water Alliance is seeking community input as it sets its 2020 water efficiency goal and determines how best to provide the water efficiency services that will help save the most amount of water.

Setting and meeting a goal for wise water use helps ensure a reliable water supply, keeps costs lower to ratepayers and allows more water to stay in streams. During the past 10 years, residents who used water wisely helped save millions of gallons of water regionally. Wise water use today helps ensure future water reliability.

Cascade Water Alliance currently provides drinking water to 350,000 residents and 20,000 businesses in member areas of Bellevue, Issaquah, Kirkland, Redmond, Tukwila and the Sammamish Plateau and Skyway Water and Sewer Districts. Cascade will set the 2020 water efficiency goals on behalf of its members.

Go to [www.cascadewater.org](http://www.cascadewater.org) now to take a quick online survey or find a printed copy of the survey in local newspapers this week throughout Cascade's member communities.
